Hybrid Power Management System is an Elcoman Patent

MAIN FEATURES

KOBRA C4-HYBRID is an innovative document shredder with a modern design, **equipped with the latest technology Hybrid Power Management System that allows up to 15% of shredding through the stored energy.** This exclusive technology enables operation through the use of stored energy and automatic disconnection from the main power supply for zero power consumption when shredding is about to be completed.

KOBRA C4-HYBRID can shred up to 17 sheets of paper at a time, CDs/DVDs and credit cards. Reliable and durable mechanisms with **high-efficiency 24-hour continuous duty motor** with no overheating, **hardened steel knives** - unaffected by staples and clips - ensure unparalleled performance, along with the most attractive design and LED technology.

The convenient 40 liter container **can be removed without lifting the cutting head**, it has a transparent illuminated front window to check the shred level and does not require plastic bags. A Safety Stop device detects the bin extraction and automatically stops the cutting unit.
